

Tough Seats
28501 Wilmot Rd
Building 1 Unit 10
Trevor, WI 53168
855-579-0538

Assembly Instructions Sears 5527

Includes 1 suspension, one bag of hardware, one seat-top (comes with slides attached) See Figure 1

How to attach the seat-top to the suspension.

1. Start with the seat-top, leave the slide rails on the seat-top
2. Place on top of the suspension base. (Figure 2)
3. Insert 4 bolts through the slides go into the very front and back holes on the suspension.
4. Tighten all 4 bolts using a 1/2 wrench.
5. Re-attach tether belt to seat-top (this is also where the old seat-belt goes or new seatbelt if ordered with the seat). Left hand hole is threaded, right hand hole using a nut. (see figure 3)
